

Exhibition Journels

PYP Teacher Support Material

Scope of requirements

The PYP development team is seeking a collection of exhibition journal ideas that offer support to exhibition students to document and monitor the process of the exhibition. These journals, which could include digital versions, might feature: purpose, essential agreements, roles and responsibilities, programme elements, meeting with mentors, academic honesty, and strategies to support student-initiated action.

We would like to understand how you introduce the exhibition to students, and the steps students might take (with 'tips' interspersed throughout) to move through the process.

Materials submitted can include, but are not limited to, PDFs, PowerPoint presentations and photographs. For this callout process we are not looking for video submissions.

Submission criteria

···	Your su	ibmission will be reviewed against the following criteria (if applicable):
 linked to aspects of the learner profile encourages student creativity and agency demonstrates inclusive approach to education when possible, can be linked to a unit of inquiry and the central idea When possible, authentic use of digital technology Check List to ensure a complete submission Submission of Teacher Support Material in one of the compatible formats: Microsoft Word (.doc, .docx), Rich Text Format (.rtf), TIF, JPG, PNG, GIF (images should have a resolution of dpi).
